## Experience

### JUNIOR APPLICATION DEVELOPER, INTERN | PHLEX PAYMENT LIMITED | JAN 2024 - JUN 2024

- **Spearheaded** the development of a fully responsive landing page for a key partner, **Wema Bank**, to promote their Agency Banking (POS) service, directly supporting their B2B client acquisition goals.
- **Engineered** a real-time transaction notification dashboard using **Web Sockets** and a **RabbitMQ** message queue, providing the operations team with immediate visibility into all incoming payments and service activity.
- **Led** a team of 3 fellow interns to design and develop a transaction reconciliation service that automatically identified failed payments where customers were debited, forming the core logic for an automated refund system.
- Authored comprehensive developer documentation for the real-time notification service, ensuring **seamless knowledge transfer** and reducing the estimated onboarding time for the next development team.

## Open-Source Contributions

### ASTRONVIM COMMUNITY | [COC.NVIM EXTENSION FIX](#) | JUL 2025

- Identified and diagnosed a critical key mapping conflict between the Coc.nvim and nvim-autopairs plugins that disrupted core auto-completion functionality for users.
- Authored and submitted a targeted patch that resolved the conflict by re-mapping essential keys (<CR>, <Tab>) to ensure proper plugin interoperability.
- My **accepted pull request** enabled a seamless, **out-of-the-box experience** for all users of the extension, eliminating the need for manual configuration and resolving a major point of friction for the community.

## Projects

### IKENNE | [MICROFINANCE BANK LANDING PAGE](#)

- Tech stack: *Vue.js, Tawk.to, Sass*
- Developed a fully responsive landing page from scratch using **Vue.js** to serve as the bank's primary digital presence.
- Integrated a **Tawk.to** live chat widget to facilitate real-time customer support and improve user engagement.

### VENTIII (IN DEVELOPMENT) | [EVENT MANAGEMENT SYSTEM](#)

- Tech stack: *Nuxt.js, Tailwind CSS, Drizzle ORM, SQLite, Cloudinary, BetterAuth*
- Engineered a full-stack event management platform with **Nuxt.js** (SSR), featuring secure user authentication, CRUD operations for events, and media uploads.
- Implemented a type-safe backend using **Drizzle ORM** with **SQLite** and integrated **Cloudinary** for image management.

## Education

### BABCOCK UNIVERSITY | JULY 2025

- BSc. Computer Science (Information Systems).
- **Relevant Coursework:** System Design, Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Web Development.
- **Certifications:** [Graduate Member, Computer Professionals Council of Nigeria \(GMCPN\)](#), [New Horizons Certification](#) (including CompTIA A+ (Core 1 & 2), Oracle Database 12c Administrator Certified Associate, Oracle Certified Professional (OCP), Java SE 8 Programmer)
- **Leadership Role:** Front-End Development Mentor (Babcock University Computer Club)

## Skills

- **Programming Languages:** JavaScript, Java, C++, Node.js, TypeScript, Express.js, React, Vue, HTML5, CSS, Next.js, Nuxt.js
- **Database:** MongoDB, MySQL, Oracle, SQLite, Drizzle ORM
- **DevOps & Tools:** Git, OpenAI, Cloudinary, Vercel, Figma
